

Reaching the nations with love and compassion

## April 2015 News Letter

### Cup of Cool Water

Uplifting Critical Communities by Revolutionizing Key Ministries

Box 1941 Bujumbura Email : [cupofcoolwater1042@yahoo.com](mailto:cupofcoolwater1042@yahoo.com) [www.cupofcoolwaterburundi.weebly.com](http://www.cupofcoolwaterburundi.weebly.com) Tel: (+257) 79 951 467

*Dear Prayers partners and friends,*

Welcome to our ministry update!

### *Mbabazi clinic project*

The building of the clinic was completed on April 2015 thanks to On Eagles Wings' efforts and your prayers.

Improving the health of the impoverished is our major motivation. In fact, Burundi has one of the lowest score in the Health index (0.487) standing on position 178 out of 186 countries. It also has one of the highest maternal mortality rates in the world: 800 per 100,000 live births (ranking at 179 out of 185 countries).

One major objective of the clinic will be to offer affordable quality health services. Based on estimations of professional health workers, who work in health facilities in suburb areas of Bujumbura, we estimate that the clinic will treat an average of 100 persons per day (3,000 per month), of which 60% are women, 30% children and 10% men.

In contrast to conventional health facilities, the Mbabazi Clinic will strive to offer quality health care to poor women, children and other desperate people. The clinic will contain the following sections and facilities:

- Pharmacy
- Laboratory
- Out-patient department
- Maternity
- Delivery room
- Women and men wards
- Paediatrics
- Dentistry – Stomatology
- Echography – Gynaecology
- Ophthalmology
- Emergency unit
- Resuscitation/ Recovery room

Update West and South Sides of Mbabazi clinic

North and South sides

East and North Sides

South Side

East Side

South, future upstairs in white and East

- Neonatology
- Counseling and HIV/ AIDS unit
- Endoscopy
- Radiology-Imaging
- Health education hall

At the beginning, Mbabazi Clinic will employ 23 staff. It will select only committed, qualified only experienced staff workers. The staff will include following positions:

- 2 Full time doctor (Generalist)
- 2 Part time doctor (Specialist)
- 1 Administrator/ Hospital manager
- 1 Accountant
- 1 Logistician
- 5 Nurse
- 2 Midwife
- 2 Laboratory worker
- 2 Lavadeur
- 2 Cook
- 2 Watchman
- 1 Driver

**Gratitude**

Staff workers at Cup of Cool Water express their genuine gratitude to GEBENDE HAENDE for its grant for the purchase of land as a car park for the Mbabazi clinic.

**Prayer items:**

1. Mbabazi clinic needs medical equipments, medications and furniture to start. (cf. attached list of needs). We appreciate if you can pray, support or link us with right hospitals or institutions or people!
2. Need for staff budget for 12 months at least before the clinic be able to generate income for its sustainability.
3. Procedures of Application for an official authorization to run the clinic to be done effectively.
4. Burundi to have peaceful times and democratic elections 2015 in spite of demonstrations against the third candidacy of the current president.

Thank you for your unceasing concern and support.  
Bless you!
